Re: Revised Work Plan for Investigation of PFAS in Groundwater, Rolling Knolls Landfill Superfund Site, Chatham, New Jersey

Dear Mr. Persico:

The Environmental Protection Agency (EPA) reviewed the Revised Work Plan for Investigation of PFAS in Groundwater (WP) for the groundwater sampling work at the Rolling Knolls Landfill Superfund Site (Site) in Chatham, New Jersey. Upon review EPA finds that the WP contains the information necessary to evaluate PFAS in groundwater at the Site. EPA has no further comments and considers this document approved.

If you have any questions please reach out to me at 212-637-3258 or ketu.rupika@epa.gov.

Sincerely,

RUPIKA
